Post by CUPE

This garbage has been like this for over a week. It is unsightly and dangerous as it contributes to vandalism. And now some of it at least is beginning to decay.

There has been a lot of propaganda (BS) lately in the (SOHR) Seniors Group propaganda organ about the introduction of the so-called Integrated Service Model and all the positive change it has effected, at least for one Reneé Sauer, [OC (that's "Senior Services Coordinator") Bully for YOu Sauer, but if she'd 'hit the ground' (as some hack put it) at West Lodge, she'd have been trained

Edit Stats

This puffery apparently originates from the rubber-stamp STAC committee (that's "Senior Tenants Advisory Committee" or – more likely – "Senior Toadies and Cellabes"). It appears, like most of their productions, to have been written by their handlers, Grant Coffey and the ubiquitous (part-time call-screener) Ronnie Patel.:

The handlers boast about the introduction of their glorious so-called Integrated Service Model, but staff still don't to do rounds, or take an interest in the grounds even though they affect us and our security. Has anything really changed?
